

COMPANY PROFILE

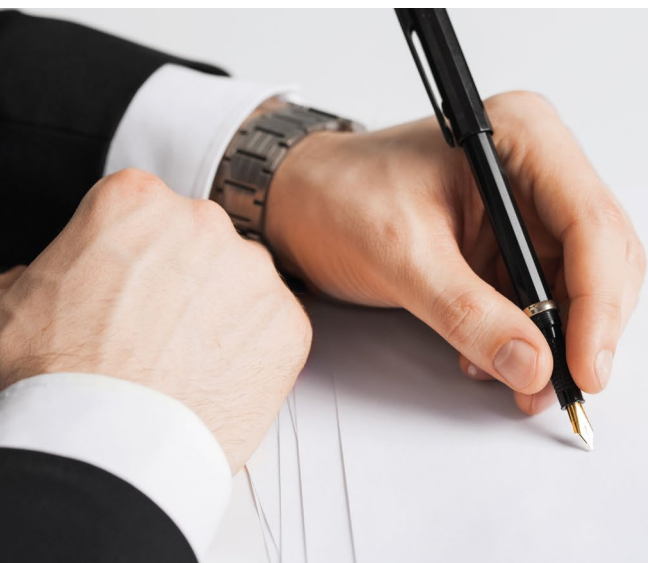

CEO'S MESSAGE

It is with great pride that I welcome you to VERTEX .

From the beginning, our goal has been clear: to provide engineering solutions that combine innovation, precision, and reliability, while creating real value for our clients and communities. In today's rapidly changing world, engineering is not just about technical expertise it is about vision, adaptability, and sustainability. We embrace new technologies, invest in our people, and uphold the highest standards of quality and safety to deliver projects that stand the test of time. Our success is built on strong partnerships with clients, stakeholders, and our dedicated team. Together, we strive to transform challenges into opportunities and to shape a better future for generations to come.

Thank you for placing your trust in VERTEX. We look forward to continuing this journey of growth, innovation, and shared success.

Abdulrahman Harb
Chief Executive Officer

ABOUT US

Vertex Energy & Protection, the Saudi branch of HIT Company (Jordan, est 2019) specializes in advanced protection and engineering solutions. Building on HIT's expertise, we deliver innovative, reliable, and sustainable services across the full project lifecycle from design to execution and maintenance.

Our multidisciplinary team combines technical know-how, industry best practices and modern technologies to deliver efficient, safe, and high-value solutions across infrastructure, energy, industrial, and specialized sectors.

Aligned with Saudi Vision 2030, Vertex is committed to driving innovation, supporting sustainable development, and being a trusted partner in transforming engineering visions into reality.

OUR VISION

Vertex Energy & Protection envisions becoming the leading non-government energy and protection company in its areas of operation, by delivering innovative solutions and consistently exceeding stakeholder expectations.

OUR MISSION

- Deliver comprehensive engineering solutions that combine innovation precision, and sustainability—helping our clients achieve lasting success while shaping a better built environment
- Transform challenges into breakthrough engineering solutions through cutting-edge technology, creative thinking, and a commitment to continuous improvement.
- Partner with clients to design and implement reliable, cost-effective engineering solutions that exceed expectations in quality, safety, and performance
- Provide engineering solutions that drive progress while respecting the planet balancing efficiency, innovation, and environmental responsibility

OUR SERVICES

● ENGINEERING & DESIGN

Our Engineering & Design service delivers innovative solutions from planning to detailed design, ensuring high-quality, efficient project execution

LPG SYSTEM

Vertex is a specialized provider of end-to-end Liquefied Petroleum Gas (LPG) system solutions, delivering every stage of the process—from concept design and engineering to equipment supply, installation, testing, Operation and long-term maintenance.

● OUR ADVANTAGES

Comprehensive Expertise: Full design, supply, and execution under one trusted provider.

Safety & Compliance: Systems engineered to meet the highest international safety and quality standards.

Energy Efficiency: Optimized performance to lower fuel consumption and reduce operating costs.

Flexible & Scalable: Custom solutions for residential, commercial, and industrial applications.

Dedicated Support: 24/7 technical assistance and preventative maintenance for uninterrupted service.

FUEL TRANSFER AND STORAGE SYSTEM

Vertex provides complete fuel transfer and storage solutions for generators and boilers, combining advanced technology with proven industry expertise to ensure safe, reliable, and cost-effective performance.

● KEY SERVICES & ADVANTAGES

- Turnkey Delivery – Design, supply, installation, and after-sales service through one trusted partner.
- Reliable Power & Heat – Steady fuel supply for uninterrupted generator and boiler operation.
- Safety First – Built to strict international standards for fire protection and pressure control.
- Smart Monitoring – Automated sensors for fuel tracking, leak detection, and pump control.
- Efficiency – Optimized flow and high-efficiency pumps cut fuel waste and operating costs.
- Custom Solutions – Scalable systems for hospitals, data centers, plants, and other critical sites.
- 24/7 Support – Ongoing technical assistance and preventive maintenance

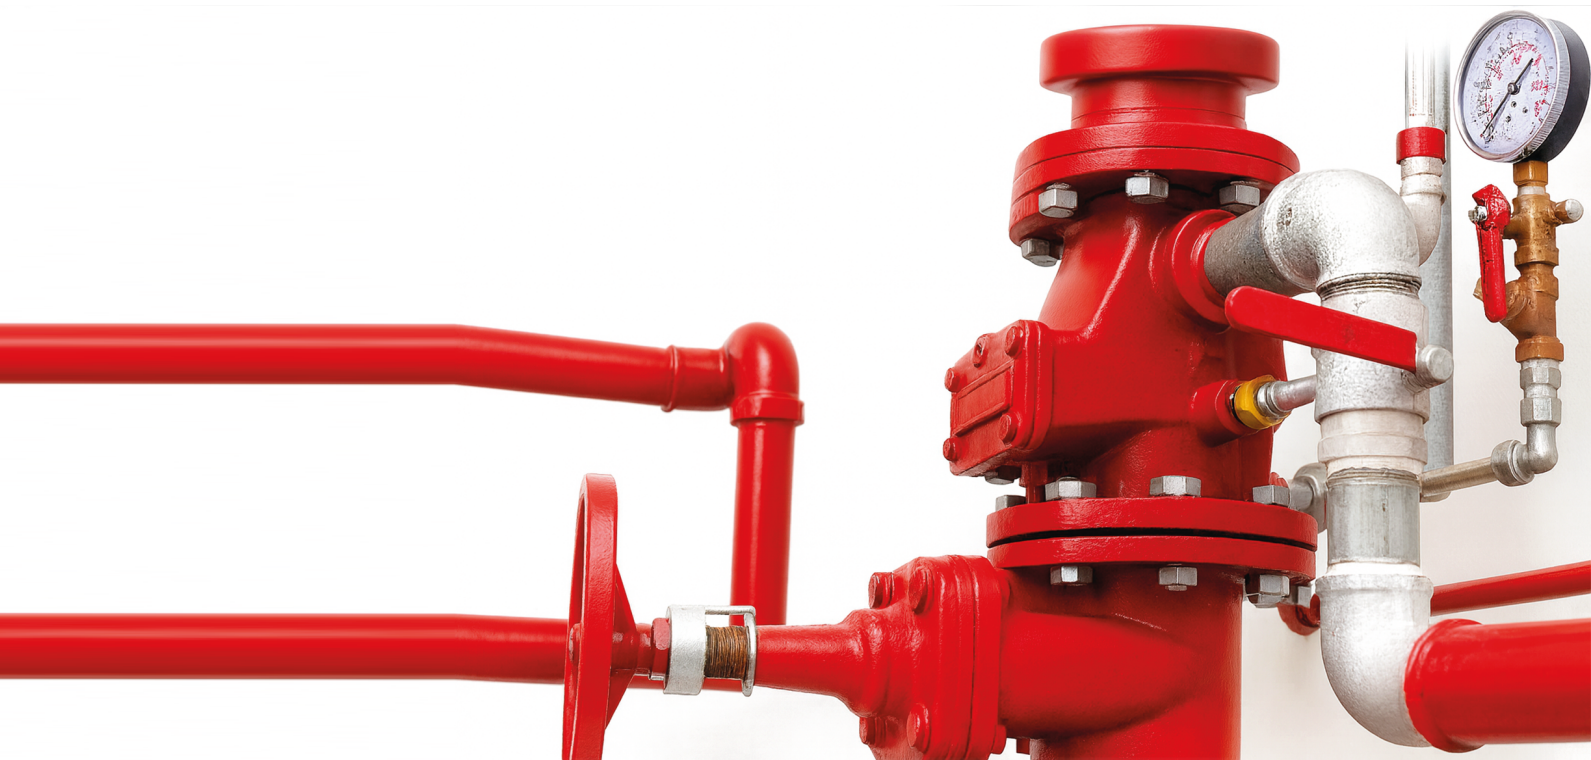

FIRE FIGHTING & FIRE SUPPRESSION SYSTEM

Vertex provides end-to-end firefighting system solutions, delivering comprehensive protection for critical facilities. We specialize in design, supply, installation, commissioning, and maintenance of advanced firefighting systems to ensure maximum safety, reliability, and operational continuity.

● OUR FIREFIGHTING SOLUTIONS INCLUDE:

- Suppression Systems – Rapid fire suppression with minimal impact on sensitive equipment.
- Sprinkler Systems – Automatic water-based suppression for effective fire control in diverse applications.
- Foam Suppression Systems – High-efficiency foam solutions for flammable liquid fires.
- Water Mist Systems – Fine water mist for fire suppression with reduced water damage.
- Dry Chemical Systems – Fast-acting chemical suppression for industrial and high-risk environments.
- Vertex combines state-of-the-art technology and industry expertise to deliver safe, reliable, and efficient firefighting systems, safeguarding your most critical assets

LOW CURRENT SYSTEMS

Vertex provides end-to-end ELV (Extra-Low Voltage) system solutions, delivering fully integrated services for modern buildings and facilities. We specialize in designing, supplying, installing, and maintaining a wide range of ELV systems, ensuring safety, efficiency, and seamless connectivity.

● OUR ELV SOLUTIONS INCLUDE:

Access Control Systems

CCTV Surveillance Systems

Fire Alarm Systems

Public Address (PA) Systems

Voice & Data Networking Systems

Intrusion Alarm Systems

TV & Satellite Systems

Vertex combines cutting-edge technology and industry expertise to deliver safe, reliable, and efficient ELV system solutions, keeping your facilities secure, connected, and fully operational.

● OPERATION & MAINTENANCE

Vertex provides comprehensive O&M services for critical systems, ensuring reliability, safety, and optimal performance. Our experienced team delivers proactive maintenance to maximize uptime and extend equipment life.

● KEY ADVANTAGES:

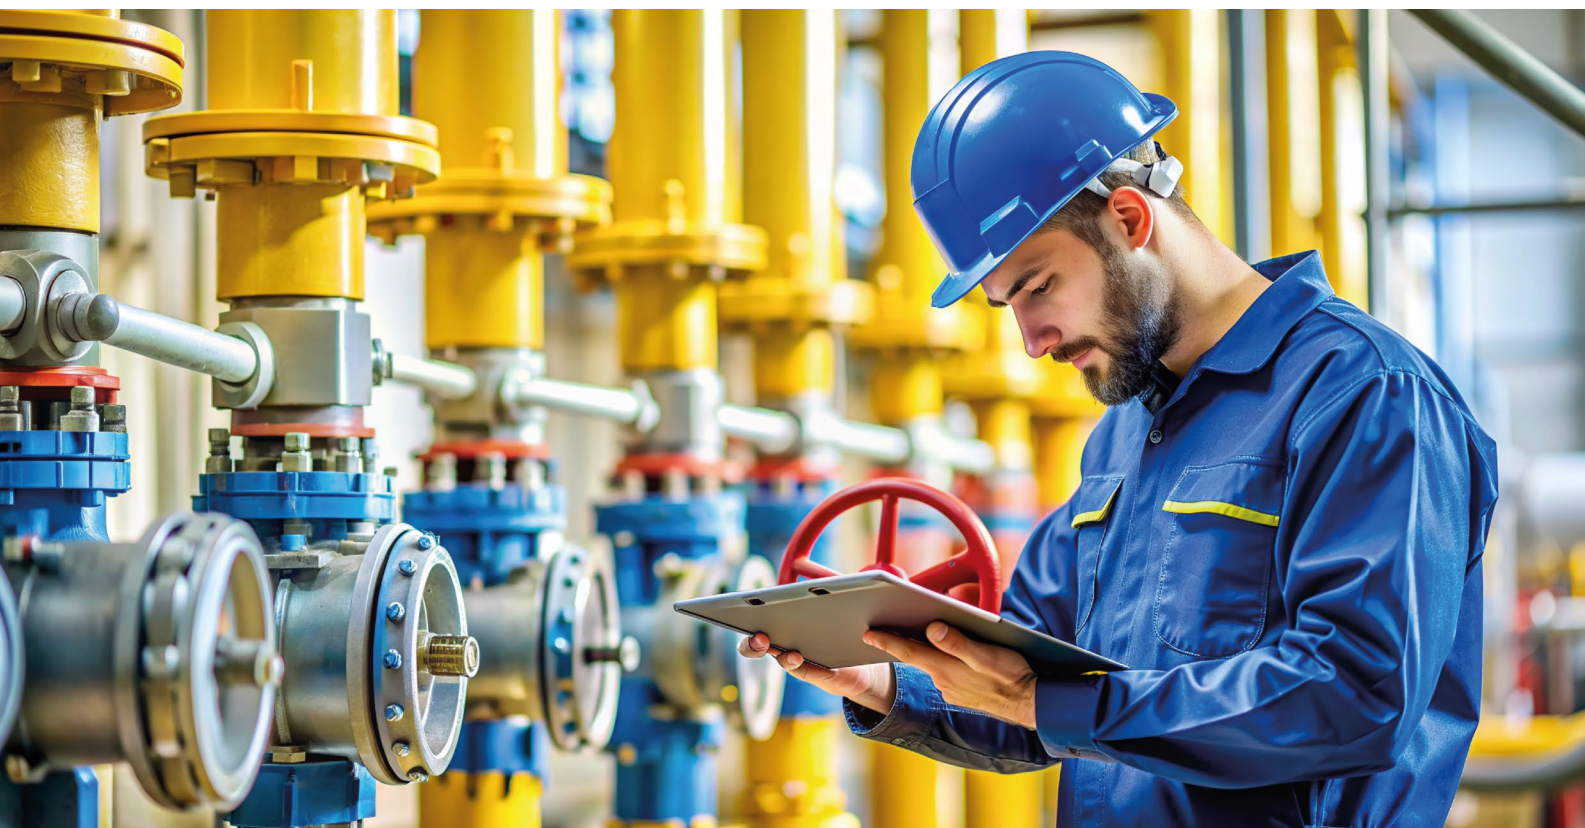

Proactive Maintenance – Prevent downtime and failures.

Expert Team – Skilled engineers and technicians.

Safety & Compliance – Aligned with international standards.

24/7 Support – Rapid response and continuous monitoring.

Customized Programs – Tailored maintenance for each client and system.
